yoo lars first show man u kill it big time tight mix i have to say..... but i'm a little bit dissapointed about u not mentioning my name when u talk about south africa man i feel like i discovered this site cause i'm the one who introduced your music to the hood. for example you mentioned Auckland park that is is my terretory i introduced the music to the guys, then pretoria i use to work at pretoria at the compay called nissan that is where most of my deeper shade downloads come from.otherwise i'm :angry: :angry: :angry: :angry: but any way its all good at the end of the day i'm glad guys are enjoying the mix i would like to meet u personally.
