DROID 6 YEAR ANNIVERSARY

In 6 years Droid Behavior has contributed heavily to the nightlife land scape. Our collaborations with like minded groups Smog, Dark Matter, Compression, Deepermoods, Icomplex, Detund and others have sought to integrate sub cultures as well as debut both the cutting edge talents and classics of Surgeon, Speedy J, Modeselektor, Vex'd, Jahcoozi, DBX, Alexander Robotnick, and Apparatt to LA's underground and mainstream club scene. As a record label, Droid has received international notoriety with heavy play, charting and support from the DJ industry and press who have all considered Droid recordings as part of the next wave of American techno. Please join us as we celebrate and pay homage to those who have helped build a movement.
